NOTICE OF ELECTION.

Palestine, Texas, Aug. 3, 1910.
To the Property Tax-Payers of Palestine:

We have this day passed an ordinance calling on the property tax-payers to vote on two propositions, one to issue \$17,000 in bonds to pay for and improve two public parks in the city of Palestine, one of about 22 acres to be purchased out of what is known as the Michaux Grove, to cost \$12,000, the other in the northern part of the city, bounded on the south by Cherokee street, on the west by Conrad street, on the east by Queen street, and on the north of Alkire's Line, containing about 20 acres, for \$3,000; also \$2,000 to improve the parks (one thousand dollars each). And a second proposition to ask the property tax-payers to vote on a bond issue of \$9,000 to buy fire fighting equipment. At the present time we have but very little fire fighting equipment, and will have to purchase some as soon as possible, if we hope to reduce or even maintain our present insurance rates.

We desire to advise you that the issuance of these bonds will not in any way increase your present tax rate or cause you to pay any more taxes than you will pay if they are not issued. They will be taken care of in the 25c bond levy for public improvements that is fixed by law and cannot be increased, but is always levied to care for bonds. We now have room in this fund to take care of these bonds without increasing the tax rate.

Respectfully,

A. L. Bowers, Mayor.
G. H. Turner.
J. H. Grant.
Jno. F. Watts.

Makes Remarkable Record.

San Antonio, Texas, Aug. 12.—What is considered a remarkable performance stands to the credit of the Twenty-second Infantry. Though its men had for two years been stationed in Alaska and had been in Texas only a few days, the regiment completed its march to the Leon Springs military reservation with only one man dropping out on account of the heat. When the Twenty-second left Alaska the maximum temperature recorded there was 40 degrees above zero and it was feared that rigorous field work in Southwest Texas with its high summer temperature would cause many men to fall out. Even in view of the fact that the climate of these parts is bracing, owing to the absence of all humidity, the performance of the regiment is thought to be exceptionally good. In a measure this is due to the organization being composed mostly of men well inured to hardships.
